

Fixes for Common Errors which Prevent Exit Note Generation

Fix 1: Avoid Entering Item Numbers in the Container Sheet which are higher than the total number of items in the Cusdec

The screenshot shows the ASYCUDA Tracking interface. On the left, a vertical list of numbers from 1 to 13 is circled in red. A blue arrow points from this list to the '2 Exporter' section of the declaration form. Another blue arrow points from the '5 Items' field in the declaration form to the 'Total Number of Items in the Cusdec : 13' text box. The declaration form includes fields for IM (4), 3 Pages, 4 List, 5 Items (13), and 6 Total Packag (4,031.00).

The screenshot shows a table with columns for 'Itm', 'Container No.', and 'Weight'. The 'Itm' column contains numbers from 2 to 8, with a red circle around the numbers 1 to 13. A blue arrow points from the 'Itm' column to the 'Item numbers in the Container Sheet: 1 to 13' text box. A red arrow points from the 'Total Number of Items in the Cusdec : 13' text box to the 'Itm' column. A red arrow also points from the 'Total Number of Items in the Cusdec : 13' text box to the 'Weight' column.
