

## Preface

This is the latest National Customs Tariff Guide (NCTG) for 2016 incorporating all the amendments of levies up to 01.04.2016.

This publication is to bring certainty in determining duty liabilities, and to have a clear understanding of the responsibilities.

It is meant for the trading community, importers and their clearing agents in general and Customs Officers in particular.

This guide is intended to provide information to those concerned in international trade with a view to facilitating trade. This guide is not a substitute for professional advice and readers are encouraged to conduct their own assessment by referring to the relevant Gazette Notifications before taking any decision.

I trust this publication will serve the need and will be a tool for facilitating International Trade.

I wholeheartedly thank the staff at Policy Planning and Research Directorate for their untiring hard work in publishing the NCTG 2016.

W.A. Chulananda Perera  
Director General of Customs
